

Here is a table of screenshots of over one hundred Tweets made about me by Joss Prior between September 2017 and November 2020. Including retweets of his own comments, the total number of derogatory comments he has made about number around 300 over the past three years.

The vast majority still exist and links to them, together with date and time posted, are shown in the first main column. My comments are in the right-hand column. I use red to highlight lies and green to highlight insults and abuse. By the way, the term TERF is derogatory. In February 2019, High Court Judge Mr Justice Julian Knowles stated, "I have become familiar with the term TERF. It is a derogatory term used by those who seek to de-platform those who hold different views".

My ongoing harassment at the hands of these transphobic bigots has been taken into account in the sentencing. There was no evidence that I had done this because I hadn't, yet the judge believed the defence witnesses. In his summary he referred to the 'unhelpful way' I had been filming.</p>
